Celebrate Summer

June 1, 2009 by [rebeccarose78](#)

Rebecca Taras, NBC Chicago Street Team

You may have kicked off summer with Memorial Day weekend, but something about slipping into the month of June seems a bit more official. The term “endless summer” is far from the truth, so start the season off on the right by taking advantage of some of these offerings that are as time sensitive as the fabulous weather.

Face Off

It's tempting to lay in the sun like a baked potato, but your skin is susceptible to some serious damage that is bound to stick with you for many summers to come. **Mitchell Dental Spa (Water Tower Place, 9th floor)** would like to help you do something positive for your face, as well as your wallet. For the entire month of June, you can receive a 50% discount on their **Cucumber Oxygen Skin Brightening Facial**. Especially designed for sun damaged or uneven-toned complexions (thanks to your baby oil days), this oxygen infused treatment incorporates light microdermabrasion and a high dose of Vitamin C to ensure a brighter complexion after just one treatment. To schedule your appointment call 312.642.1014. www.MitchellDentalSpa.com.
